

# Installing your new Heat Shield into a SaunaLife EE6G:

## What you'll need:

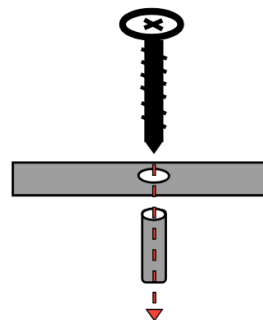

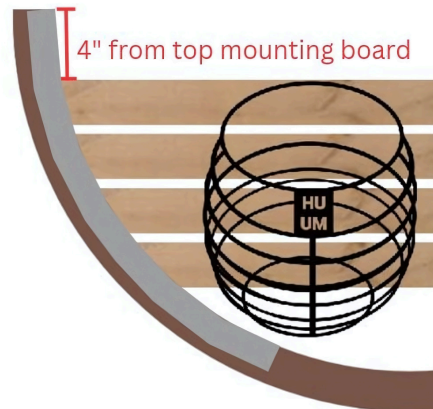

Tape Measure  
Pencil  
Power drill with a Phillips head bit  
Extra Set of Hands Helpful

## *Prior to Heater Installation*

1: Measure 4" up from the top of your heater's mounting boards and mark with a pencil.

2: Using the included hardware, place the aluminum spacer between the heat shield and the wall of your sauna and secure with screws; aligning the top of the Shield to the 4" mark. The Shield will sit flush against the boards at the front of your sauna.
