

COZY
Crafting warmth

CRAFTING WARMTH - Over 20 Years of Expertise

COZY Heat is an Estonian sauna heater brand founded in 2018. The main focus at COZY has always been on **the quality of the sauna experience** – the warmth, the steam, and the ambiance. The rich, voluminous, and gentle steam from our stoves is achieved by precisely heating a large volume of stones, which serves as a heat reservoir, ensuring a long-lasting and soothing sauna session.

COZY sauna stoves are designed to hold between 90 to 160 kg of stones, depending on the model. This significant stone mass acts as a heat accumulator, allowing the sauna to stay warm for extended periods.

All COZY products are designed to deliver exceptional performance as well as aesthetic appeal. With five distinct exterior designs to choose from, there is a perfect COZY stove for every sauna enthusiast.

Each model offers a unique visual experience. You can easily change the look of the stove by swapping out the stones. Sharp-edged stones add character while round stones bring elegance and softness. It is also possible to get a new design cage that holds the stones to refresh the look and feel of your sauna, keeping it as dynamic as you are.

COZY stoves are built for efficiency and environmental sustainability. The stoves boast excellent combustion quality, resulting in lower emissions - twice as low as the most strict standards - and reduced firewood consumption by at least 25%, with some models achieving up to 40% less fuel usage.

Constructed from 5mm thick structural steel, our stoves are designed to last for many years. Every COZY sauna stove is certified in Germany to meet the highest standards -

(EN 15821:2010, BlmSchV DIN EN 13240, level 2).

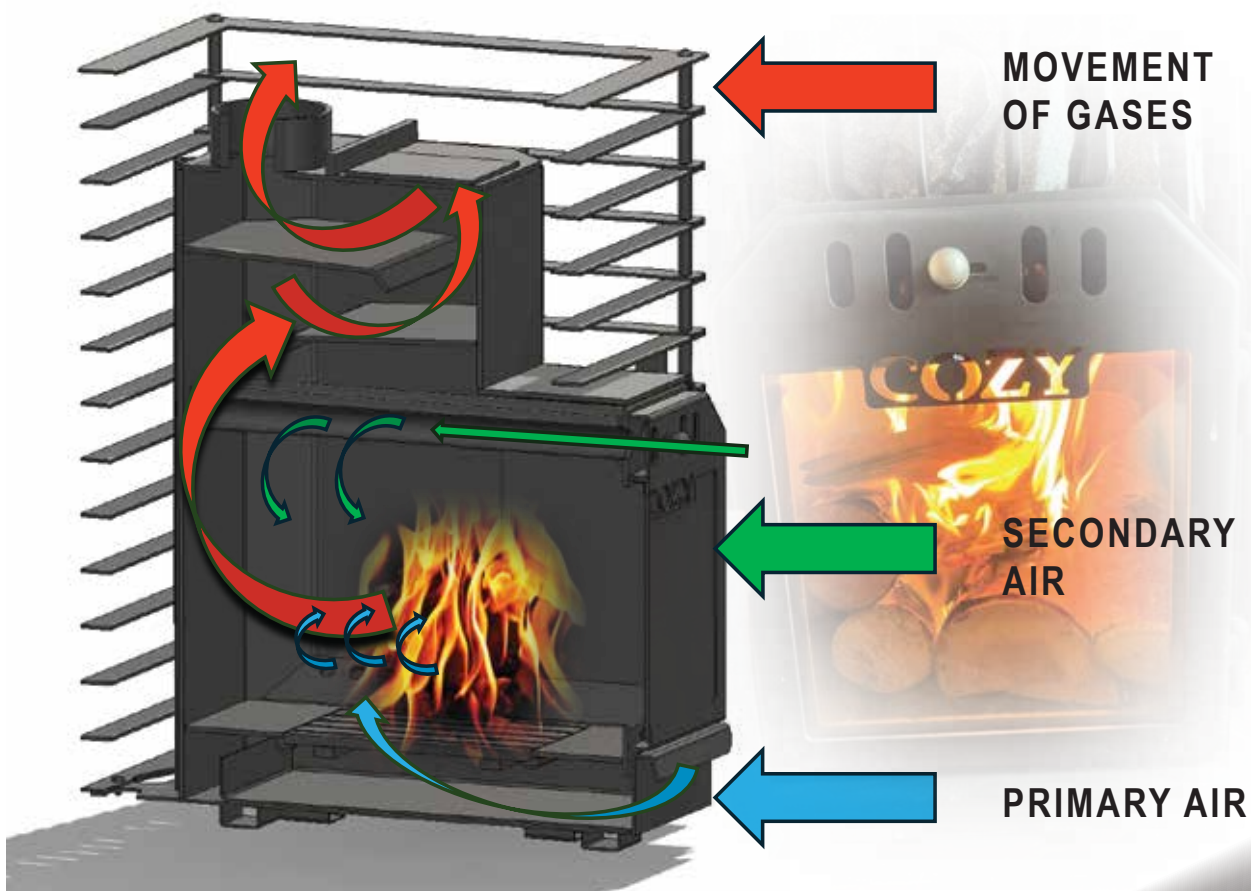

The COZY team of highly skilled engineers and designers is committed to achieving the highest standards of excellence in every aspect of product development. With our own cutting-edge production facilities, we oversee every step of the manufacturing process, ensuring that each product is crafted with precision and subjected to strict quality control measures. This dedication to quality guarantees that you receive the finest products available.

At COZY Heat, we are continuously pushing the boundaries of innovation, enhancing our designs to meet evolving customer needs, ensuring that your sauna experience is always at its best.

Working principle and benefits:

- different designs to suit various preferences;
- soft steam for best sauna experience;
- 25% less fuel consumption;
- six times cleaner smoke emissions, with lower flying ash particles keeping the chimney cleaner;
- lower flue gas temperatures;
- efficient secondary air flow;
- longer burning process;
- extended lifespan with a 5 year warranty;
- certified quality: BimSchV 2 DIN 13240, EN 15821 standard;

COZY SW

The SW model features graceful vertical lines and a body that gently slopes towards the steam room, highlighting the volume of the stones and making it easy to pour water over them.

Sauna Stove COZY 12 SW

Weight: 65 kg / 143 lb

Stone capacity: 90 kg / 200 lb

Sauna size: up to 12 m³/432 ft³

All heater models are available in both black and stainless steel finishes, as well as through the wall (TW) option.

Sauna Stove COZY 18 SW

Weight: 95 kg / 209 lb

Stone capacity: 130 kg / 290 lb

Sauna size: up to 22 m³/795 ft³

Sauna stove model	Sauna volume	Stones weight	Fuel
COZY 12 SW	Up to 12 m ³ / 432 ft ³	90 kg / 200 lb	Wood logs – up to 33 cm / 13 in
COZY 18 SW	Up to 22 m ³ / 795 ft ³	130 kg / 290 lb	Wood logs – up to 40 cm / 15,7 in

COZY QUATTRO

For those who prefer a more modern aesthetic, the Quattro model boasts a strict, minimalist design that perfectly complements contemporary sauna styles.

Sauna Stove COZY 12 QUATTRO

Weight: 64 kg / 141 lb

Sauna size: up to 12 m³/432 ft³

All heater models are available in both black and stainless steel finishes, as well as through the wall (TW) option.

Sauna Stove COZY 18 O

Weight: 70 kg / 154 lb

Stone capacity: 130 kg / 290 lb

Sauna size: up to 22 m³/795 ft³

Sauna stove model	Sauna volume	Stones weight	Fuel
COZY 12 O	Up to 12 m ³ / 432 ft ³	90 kg / 200 lb	Wood logs – up to 33 cm / 13 in
COZY 18 O	Up to 22 m ³ / 795 ft ³	130 kg / 290 lb	Wood logs – up to 40 cm / 15,7 in

COZY KIVI

Kivi is a new type of sauna heater from COZY. The heater is coated in a stylish stone finish that can withstand temperatures up to 1700°C. This durable exterior is made from a heat-resistant mixture and is designed to last.

COZY Kivi emits even less heat radiation compared to mesh heaters currently available on the Market which ensures better safety in the sauna. Additionally, the stone covering has a high heat storage capacity, ensuring the sauna stays warm for a long time, while providing extra-soft steam. COZY Kivi is built to last and deliver warmth to any modern sauna for years to come.

Sauna stove model	Sauna volume	Stones weight	Fuel
COZY 12 KIVI	Up to 12 m ³ / 432 ft ³	30 kg / 67 lb	Wood logs – up to 33 cm / 13 in
COZY 18 KIVI	Up to 22 m ³ / 795 ft ³	40 kg / 97 lb	Wood logs – up to 40 cm / 15,7 in

COZY has been refining the art of wood-burning stoves for years, making it the core of the company's philosophy. The foundation was laid when founder Voldemar Nellis worked alongside his father, Paul, a renowned stove maker. Paul's dedication and pursuit of excellence continue to guide the company, reflected in his motto: "Our work must be done so well that it outlives us." COZY Heat was officially launched in 2018, with expert teams enhancing its products daily. In-house designer Oleg Golmakov leads stove designs, believing a stove is more than a heating element—it's the soul of every sauna, symbolizing warmth and tradition. At COZY we believe that sauna is a way of life.
